*WARNING: PLEASE CAREFULLY READ THE PRECAUTIONS BOOKLET INCLUDED WITH THIS PRODUCT BEFORE USING YOUR NINTENDO® HARDWARE SYSTEM, GAME PAK OR ACCESSORY. THIS BOOKLET CONTAINS IMPORTANT SAFETY INFORMATION.*

## IMPORTANT SAFETY INFORMATION - READ THE FOLLOWING WARNINGS BEFORE YOU OR YOUR CHILD PLAY VIDEO GAMES

## ⚠ WARNING - Seizures

Some people (about 1 in 4000) may have seizures or blackouts triggered by light flashes, such as while watching TV or playing video games, even if they have never had a seizure before.

Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.

Parents should watch when their children play video games. Stop playing and consult a doctor if you or your child have any of the following symptoms:

| | | |
|---|---|---|
| **Convulsions** | **Eye or muscle twitching** | **Loss of awareness** |
| **Altered vision** | **Involuntary movements** | **Disorientation** |

To reduce the likelihood of a seizure when playing video games:
1. Sit or stand as far from the screen as possible.
2. Play video games on the smallest available television screen.
3. Do not play if you are tired or need sleep.
4. Play in a well-lit room.
5. Take a 10 to 15 minute break every hour.

# ⚠ WARNING - Repetitive Motion Injuries

Playing video games can make your muscles, joints or skin hurt after a few hours. Follow these instructions to avoid problems such as Tendonitis, Carpal Tunnel Syndrome or skin irritation:

- Take a 10 to 15 minute break every hour, even if you don't think you need it.
- If your hands, wrists or arms become tired or sore while playing, stop and rest them for several hours before playing again.
- If you continue to have sore hands, wrists or arms during or after play, stop playing and see a doctor.

# ⚠ WARNING - Battery Leakage

Leakage of battery acid can cause personal injury as well as damage to your Game Boy. If battery leakage occurs, thoroughly wash the affected skin and clothes. Keep battery acid away from your eyes and mouth. Leaking batteries may make popping sounds.

To avoid battery leakage:

- Do not mix used and new batteries (replace all batteries at the same time).
- Do not mix alkaline and carbon zinc batteries.
- Do not mix different brands of batteries.
- Do not use nickel cadmium batteries.
- Do not leave used batteries in the Game Boy. When the batteries are losing their charge, the power light may become dim, the game sounds may become weak, or the display screen may be blank. When this happens, promptly replace all used batteries with new batteries.
- Do not leave batteries in the Game Boy or accessory for long periods of non-use.
- Do not leave the power switch on after the batteries have lost their charge. When you finish using the Game Boy, always slide the power switch OFF.
- Do not recharge the batteries.
- Do not put the batteries in backwards. Make sure that the positive (+) and negative (-) ends are facing in the correct directions. Insert the negative end first. When removing batteries, remove the positive end first.
- Do not dispose of batteries in a fire.

# PORSCHE® HISTORY

Ferdinand Porsche set out to design cars back in 1931.  It wasn't until 1948 that the first car bearing his name was put into production.  This was the Porsche® 356.

Over the years, Porsche® evolved their 356.  Eventually, the 911 series was created, with its instantly recognizable shape.  Renowned for their performance, Porsches® were the only 'super car' that was just as happy making the day-to-day trip to work than it was on the racetrack.

Need For Speed™: Porsche® Unleashed draws from this history of groundbreaking cars, allowing you to choose and customize 25 different vehicles from within Porsche's® 50-year history.

*Unleash the power of the Porsche®!*

# THE CARS

Need For Speed:Porsche® Unleashed gives you the opportunity to drive virtually any car from Porsche's® 50 year history, from a classic '50s 356 right up to the modern day GT1 race car.  The handling and performance of each vehicle differs with the era, engine power, tires and suspension.

# USING THE MENU SYSTEM

The menu system can be navigated using the Control Pad, along with the A and B Buttons. The options are displayed sequentially down the screen. The currently selected option with be highlighted GREEN. Unselected options will be RED.

Use the following buttons to navigate the menus:

| | |
|---|---|
| Control Pad Up | Select option above |
| Control Pad Down | Select option below |
| Control Pad Left/ Control Pad Right | Change / Toggle Option |
| A Button | Select Option |
| B Button | Go back to previous option |

# SINGLE PLAYER > QUICK RACE MODE

This arcade mode is for anyone who wants to get into the action quickly.  Use any of the unlocked cars to race competitors around any of the tracks.

Note: Only 4 cars initially available.  Additional cars can be unlocked by winning tournaments in Evolution mode.

There are 3 Quick Race Modes.  These are:

- Quick Race - A race from start to finish along any track.
- Quick Knockout - Multiple laps around a circuit track.
- Knockout - Multiple Races across all tracks.  This mode enables you to create your own Knockout tournaments. You can select which tracks you want to race on, along with the weather conditions and other settings.

# SETTING UP A NEW PLAYER

Before you begin, you can personalize the game by entering your own name. You may also choose from a selection of driver images.

Use the Control Pad to move the selector box around the letter

selection area. Pressing the A Button will select a letter. If you make a mistake, select the 'Del' button from the selection area. Alternatively, pressing the B Button will delete the letters.

Your driver image can be selected by moving the selector cursor directly beneath the driver image, then pressing Control Pad Up. This will active the picture selector. Pressing Control Pad Left and Right will enable you to scroll through the different driver images. When you are happy with your driver image, press Control Pad Down to return to letter entry.

When you have finished entering your details, select the 'End' option.

- **Wrong Way Indicator:** This icon appears in place of the corner indicator when you are heading in the wrong direction on the track.
- **Time:** This is the current race time.
- **Position:** This shows your race position in relation to the opponent cars.
- **Lap:** This shows your lap number. This is only shown on the Monaco circuit.
- **Speedometer & Rev Counter:** This shows your current speed, gear and engine RPM.

# EVOLUTION MODE

This is a career mode in which you will take part in a series of races or tournaments.  Successfully winning a race will unlock the model required to compete in the next event.  Starting with the Classic 356s, you will work your way through Golden and Modern era cars to the 2000 edition GT1.

The cars unlocked in Evolution mode will be available to drive in all the other game modes.

# EVOLUTION MODE : LOADING A GAME

Need for Speed™: Porsche® Unleashed uses an EPROM backup.  This means that the cartridge stores your details and status automatically at the

end of each tournament.  When Evolution mode is selected, you have the option of loading a previously saved game from any of the four available memory slots.

## MULTI-PLAYER MODE

Multi-Player mode will allow you to race against any friend who owns their own copy of Need For Speed™: Porsche® Unleashed.  You can race any of your unlocked cars against your friend-the player with the fastest car having the advantage.

To use multiplayer mode, the Game Boy® Advance systems must first be connected using a Game Boy® Advance Link® cable.  Once this is done, select the Multi-Player option from the Main Menu on both Game Boy® Advance systems.

Multi-Player mode is available for 2-4 players.
